

Nadia Moore PhD, DABT, ERT

Principal Toxicologist

Redmond, WA

☎ 425.556.5555

✉ nmoore@veritox.com

Dr. Moore is a Principal Toxicologist at Veritox® and an active member of the Pacific Northwest Association of Toxicologists (President, 2018), the Society of Toxicology, and the Women in Toxicology Special Interest Group (Councilor, 2016-2018). She is certified in toxicology by the American Board of Toxicology and is admitted as a European Registered Toxicologist in both the United Kingdom and EUROTOX registries.

Dr. Moore has more than 20 years of multidisciplinary experience in toxicology, regulatory compliance, molecular, biology, and analytical chemistry. She has conducted short-term through 2-year carcinogenicity animal studies of inhaled vapors, aerosols, particulates, and complex mixtures and performed risk-based toxicology assessments for potential contaminants in workplace exposures and consumer products.

Dr. Moore holds a Ph.D. from the University of Washington. She has experience with both chemical and physical agents (including asbestos, pesticides, solvents, vapors, particulate matter - PM_{2.5}, metals, and microbial agents), exposure scenarios (including environmental, occupational, and residential) and routes of exposure (including inhalation, oral, and percutaneous).

In addition to professional organizations already mentioned, Dr. Moore is a member of the British Toxicology Society, American College of Occupational and Environmental Medicine, Society for Experimental Biology and Medicine, American College of Toxicology, American Industrial Hygiene Association, American Chemical Society, and American Association for the Advancement of Science.
